Neil

" As a busy-working man I have no time and heart to prepare so I purchase braindumps for 117-010. I pass exam just one day's preparation. Great! "

Jodie

" The introduction of my friend said actual4exams is a good choice. The PDF &SOFT dumps on it are very good. So I came here and found that your guys are very kind. Then I decided to buy 117-010 exam dpf from you. I eventually passed the exam. Thanks "

Abraham

" I passed 117-010 easily. After using actual4exams pdf materials, I can say without any doubt that actual4exams is a very professional website that provides all of candidates with the excellent exam materials. Thank you guys "

Why Choose Actual4Exams

Quality and Value

Actual4Exams Practice Exams are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development - no all vce.

Tested and Approved

We are committed to the process of vendor and third party approvals. We believe professionals and executives alike deserve the confidence of quality coverage these authorizations provide.

Easy to Pass

If you prepare for the exams using our Actual4Exams testing engine, It is easy to succeed for all certifications in the first attempt. You don't have to deal with all dumps or any free torrent / rapidshare all stuff.

Try Before Buy

Actual4Exams offers free demo of each product. You can check out the interface, question quality and usability of our practice exams before you decide to buy.

Actual & valid exam test dumps for your successful pass

Exam : H35-211

Title : HCIP-Access V2.0

Vendor : Huawei

Version : DEMO

NO.1 What are the upstream and downstream wavelengths in a GPON network?

- A. 1490 nm/1550 nm
- B. 1490 nm/1310 nm
- C. 1310 nm/1490 nm
- D. 1310 nm/1550 nm

Answer: C

NO.2 In the PITP application of OLT+MDU networking, which of the following statements is incorrect?

- A. When PITP is enabled only on the OLT, only the PON port information of the OLT can be used.
- B. If PITP is enabled on both the OLT and the MDU, you need to pass a switch (pitp permit-forwarding service-port X) on the OLT. When this switch is enabled, it carries the OLT PON port information.
- C. If PITP is enabled on both the OLT and the MDU, the PON information and MDU port information are also marked.
- D. When PITP is enabled only on the MDU, only the user port information of the MDU can be carried.

Answer: C

NO.3 Which of the following are key technologies for VoIP? (Multiple Choice)

- A. Real-time transmission technology
- B. Media Technology
- C. Network Transmission Technology
- D. Signaling Technology

Answer: A,B,C,D

NO.4 The DC upgrade tool requires license support. In the absence of a license, 30 sets can be issued concurrently. If there is a license, the maximum number of concurrent sets is 60.

- A. True
- B. False

Answer: B

NO.5 Is the description correct?

The mounting ears that are delivered with the MA5616 are used for 19-inch rack installation.

- A. TRUE
- B. FALSE

Answer: A

NO.6 By default, how many multicast programs can be watched by each multicast user under the MA5680T?

- A. 8
- B. 16
- C. 2
- D. 4

Answer: A

NO.7 When locating an XDSL fault, which of the following is not the reason that users of the entire frame device cannot access the Internet?

- A.** The device's main control board is faulty
- B.** Some XDSL board failures
- C.** Power Supply Problems
- D.** Cyberattacks

Answer: B

NO.8 Calling emulation: It means that the user (input test parameters, such as the called number, etc.) initiates the outgoing call emulation test on the specified port. The test module replaces the calling user to pick up the phone and dials, dials the specified called number, and the called party rings. After the called user picks up the phone, he hears a tone, dials the specified number according to the tone, and tests whether the port detection number is correct.

- A.** True
- B.** False

Answer: A

NO.9 In FTTx access planning, you can generally configure the uplink aggregation group to increase the bandwidth and reliability of the OLT device uplink. Which of the following statements are correct? (Multiple Choice)

- A.** Cross-board aggregation between SCUN board and GIU slot when using a single main board
- B.** Aggregation groups can implement cross-board aggregation between two SPUA boards
- C.** Aggregation groups can implement cross-board aggregation between two GIU slots
- D.** The two port types configured for aggregation must be consistent

Answer: A,B,C,D

NO.10 Packet voice processing board PVM, manage and control the narrowband user board in the UA5000 chassis. Which of the following is wrong?

- A.** Support TDM voice signal uplink to the switch through the V5 interface
- B.** Implement V5 protocol and H.248/MGCP protocol processing
- C.** Support TDM voice encapsulation into IP packets uplink to softswitch equipment
- D.** Support TDM voice encapsulation into ATM cell uplink to softswitch equipment

Answer: D

NO.11 What are the factors that may affect VLAN division and planning when designing FTTx services? (Multiple Choice)

- A.** Customer type
- B.** Ordinary users' business quantity and business types
- C.** Available VLAN resources
- D.** Number of OLT access users

Answer: A,B,C,D

NO.12 If a multicast user under the MA5600 is watching a multicast program while spending time, which of the following may be the cause of this problem?

- A. Upstream port interruption
- B. Lost Routes of Upstream Devices
- C. The downlink bandwidth parameter in the line-profile bound to the ADS port is too small.
- D. None of the above

Answer: C

NO.13 Which of the following commands is used to query whether the status of all boards in the MA5600T/MA5600T chassis is normal?

- A. display board 0
- B. display frame info 0
- C. display frame info 0/0
- D. display board info 0

Answer: A

NO.14 Is the following description correct?

The essence of the GPON system carrying TDM signals is to encapsulate the TDM into GEM frames on the ONU, decapsulate the GEM frames into TDM signals on the OLT, and then transmit them to devices capable of TDM signals on the uplink.

- A. True
- B. False

Answer: A

NO.15 If the UA5000 user picks up the phone without a dial tone, what are the possible reason? (Multiple Choice)

- A. Port occlusion
- B. Data configuration error
- C. Line, terminal issues
- D. Signaling process error

Answer: A,B,C,D

NO.16 The user's home is set to ONT dial-up, but the PC can't access the Internet. Log in to the ONT web interface and find that the ONT has obtained the address. The PC can also obtain the private network address 192.168.100.2. What are the possible reason? (Multiple Choice)

- A. VLAN without set WAN ports
- B. WAN and LAN are not bound
- C. ONT NAT is not turned on
- D. The LAN port is not set in Layer 3 mode

Answer: B,C
