Neil

" As a busy-working man I have no time and heart to prepare so I purchase braindumps for 117-010. I pass exam just one day's preparation. Great! "

Jodie

" The introduction of my friend said actual4exams is a good choice. The PDF &SOFT dumps on it are very good. So I came here and found that your guys are very kind. Then I decided to buy 117-010 exam dpf from you. I eventually passed the exam. Thanks "

Abraham

" I passed 117-010 easily. After using actual4exams pdf materials, I can say without any doubt that actual4exams is a very professional website that provides all of candidates with the excellent exam materials. Thank you guys "

Why Choose Actual4Exams

Quality and Value

Actual4Exams Practice Exams are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development - no all vce.

Tested and Approved

We are committed to the process of vendor and third party approvals. We believe professionals and executives alike deserve the confidence of quality coverage these authorizations provide.

Easy to Pass

If you prepare for the exams using our Actual4Exams testing engine, It is easy to succeed for all certifications in the first attempt. You don't have to deal with all dumps or any free torrent / rapidshare all stuff.

Try Before Buy

Actual4Exams offers free demo of each product. You can check out the interface, question quality and usability of our practice exams before you decide to buy.

Actual & valid exam test dumps for your successful pass

Exam : **HPE0-S54**

Title : Designing HPE Server
Solutions

Vendor : HP

Version : DEMO

NO.1 What are features of the HPE Synergy Planning Tool? (Choose two.)

- A. It runs on the Partner Ready Portal
- B. It recommends the best top-of-rack switch
- C. It provides estimated power consumption and weights of the solution
- D. It aids configuration of rack, Frames, compute, storage, fabric and power
- E. It creates a REST configuration file based on configuration created

Answer: C,D

NO.2 Your customer is interested in Synergy and composable infrastructure. They are concerned that operational savings may not meet expectations since operating system installation consumes a great deal of time.

Which feature should you highlight to overcome the objection?

- A. The Synergy Composer provides HTTPS boot services
- B. The Synergy Image Streamer can provision operating systems in seconds
- C. The Synergy Composer can provision operating systems in seconds
- D. The Synergy Frame Link modules provide PXE operating boot partitions

Answer: B

NO.3 A customer temporarily needs to add an additional network connection to a provisioned server that is being actively managed by OneView. The server is currently powered down. Which top level option should they click as the first step?

OneView					
General	Servers	Networking	Storage	Facilities	
Dashboard	Server Profiles	Networks	Volumes	Data Centers	Settings
Activity	Server Profile Templates	Network Sets	Volume Templates	Racks	Users and Groups
Firmware Bundles	Enclosure Groups	Logical Interconnect Groups	Storage Pools	Power Delivery Devices	
Reports	Logical Enclosures	Logical Interconnects	Storage Systems	Unmanaged Devices	
	Enclosures	Interconnects	SANs		
	Server Hardware	Logical Switch Groups	SAN Managers		
	Server Hardware Types	Logical Switches			
		Switches			

Answer:

OneView					
General	Servers	Networking	Storage	Facilities	
Dashboard	Server Profiles	Networks	Volumes	Data Centers	Settings
Activity	Server Profile Templates	Network Sets	Volume Templates	Racks	Users and Groups
Firmware Bundles	Enclosure Groups	Logical Interconnect Groups	Storage Pools	Power Delivery Devices	
Reports	Logical Enclosures	Logical Interconnects	Storage Systems	Unmanaged Devices	
	Enclosures	Interconnects	SANs		
	Server Hardware	Logical Switch Groups	SAN Managers		
	Server Hardware Types	Logical Switches			
		Switches			

NO.4 What must a customer consider when adding an uplink set to a Logical Interconnect Group? (Choose two.)

- A. Logical Interconnects will need to be restarted
- B. The associated Logical Interconnects will be flagged as inconsistent
- C. Additional Logical Interconnects will need to be created
- D. Logical Interconnects will need to be updated from the group
- E. Logical Interconnects will automatically be restarted

Answer: A,D

NO.5 Your customer has 500 SY480 Gen10 compute nodes running a variety of physical and virtual workloads. They are looking for a way to get a unified view of the entire environment. Which product should you recommend?

- A. HPE OneView for VMware vCenter
- B. HPE OneView for Red Hat Enterprise Virtualization
- C. HPE OneView Global Dashboard
- D. HPE OneView for Microsoft System Center

Answer: C

NO.6 A customer has an existing Hadoop installation built on DL380 Gen9 24SFF servers. You need to review their existing installation and provide recommendations on how to achieve their stated storage density goal of over 5PB per server cabinet. Which HPE solution should you recommend?

- A. HPE DL580 Gen10
- B. HPE Apollo 6500
- C. HPE ML350 Gen10
- D. HPE Apollo 4510

Answer: D

NO.7 A customer wants to use iLO Federation to manage firmware deployments with HPE SUM. Which options are included? (Select two.)

- A. Update the iLO firmware and system ROM offline through the iLO Federation group
- B. Update all applicable firmware on HPE ProLiant servers through the iLO using offline deployment
- C. Apply updates to all members of iLO Federation group with an iLO standard license
- D. Automatically discover iLO Federation groups on the same management network
- E. iLO federation is leveraging ICsp functionality to update firmware

Answer: B,C

NO.8 You are introducing Synergy to a new customer. Which tool can you use to demonstrate the physical components of the Synergy frame and how they connect?

- A. HPE PartSurfer
- B. HPE Synergy Planning Tool
- C. HPE Product Bulletin
- D. HPE Product Tour

Answer: B

NO.9 While installing a three frame Synergy solution, only two of the frames are identified during the discovery process.

What should you do to get resolution?

- A. Issue a refresh command to the enclosure
- B. Remove and re-insert the standby Composer
- C. Open the front panel of the Composer, and read the error message
- D. Validate Frame Link Module topology

Answer: D

NO.10 You are configuring a new server for a customer. The customer has given you the following information regarding their environment:

2 processors with 22 cores

256GB RAM

600GB of usable internal storage

10GB network, dual connections

iLO Advanced

3 years of 7x24 basic support

Which additional information do not need to determine the best option for internal storage?

- A. Will a Fibre Channel card be required?
- B. Is the application workload sensitive to I/O latency?

- C. Does the application require RoCE capable adapters?
- D. Does the application require a large memory footprint

Answer: B
