Neil

" As a busy-working man I have no time and heart to prepare so I purchase braindumps for 117-010. I pass exam just one day's preparation. Great! "

Jodie

" The introduction of my friend said actual4exams is a good choice. The PDF &SOFT dumps on it are very good. So I came here and found that your guys are very kind. Then I decided to buy 117-010 exam dpf from you. I eventually passed the exam. Thanks "

Abraham

" I passed 117-010 easily. After using actual4exams pdf materials, I can say without any doubt that actual4exams is a very professional website that provides all of candidates with the excellent exam materials. Thank you guys "

Why Choose Actual4Exams

Quality and Value

Actual4Exams Practice Exams are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development - no all vce.

Tested and Approved

We are committed to the process of vendor and third party approvals. We believe professionals and executives alike deserve the confidence of quality coverage these authorizations provide.

Easy to Pass

If you prepare for the exams using our Actual4Exams testing engine, It is easy to succeed for all certifications in the first attempt. You don't have to deal with all dumps or any free torrent / rapidshare all stuff.

Try Before Buy

Actual4Exams offers free demo of each product. You can check out the interface, question quality and usability of our practice exams before you decide to buy.

Actual & valid exam test dumps for your successful pass

Exam : **OG0-093**

Title : TOGAF 9 Combined Part 1 and Part 2

Vendor : The Open Group

Version : DEMO

NO.1 Which section of the TOGAF template for Architecture Principles should clearly state the impact to the business and consequences of adopting the principle?

- A. Statement
- B. Rationale
- C. Name
- D. Implications

Answer: D

NO.2 Which ADM phase is responsible for assessing the performance of the architecture and making recommendations for change?

- A. Phase F
- B. Phase G
- C. Phase H
- D. Phase E
- E. Phase A

Answer: C

NO.3 Which of the following is a responsibility of an Architecture Board?

- A. Creating the Statement of Architecture Work
- B. Allocating resources for architecture projects
- C. Establishing targets for re-use of components
- D. Conducting assessments of the maturity level of architecture discipline within the organization
- E. Identifying the Lead Enterprise Architect to manage an architecture compliance review

Answer: D

NO.4 Complete the sentence by selecting the applicable pair of words. A/an _____ is used in Phase A to help identify and understand business _____ that the architecture has to address.

- A. business transformation readiness assessment, constraints
- B. use case, interconnections
- C. architecture view, concerns
- D. business scenario, requirements
- E. activity model, perspective

Answer: D

NO.5 Complete the sentence. According to TOGAF, all of the following are responsibilities of an Architecture Board, except _____.

- A. Preparing architecture review reports
- B. Ensuring consistency between sub-architectures
- C. Monitoring of architecture contracts
- D. Improving the maturity of the organization's architecture discipline
- E. Ensuring flexibility of the enterprise architecture to meet business needs

Answer: A

NO.6 Which phase of the ADM ensures that implementation projects conform to the defined architecture?

- A.** Requirements Management
- B.** Phase G
- C.** Phase D
- D.** Phase F
- E.** Phase H

Answer: B

NO.7 Complete the sentence. In TOGAF, architecture viewpoints represent _____

- A.** stakeholder requirements
- B.** observations of the CIO/CTO
- C.** opinions of the sponsors
- D.** concerns of stakeholders
- E.** observations of the architect staff

Answer: D

NO.8 According to TOGAF, where should architecture governance artifacts be stored?

- A.** In the Foundation Architecture
- B.** In the Architecture Repository
- C.** In the Integrated Information Infrastructure Reference Model
- D.** In the Standards Information Base

Answer: B

NO.9 According to TOGAF, which of the following are the architecture domains that are commonly accepted subsets of an overall enterprise architecture?

- A.** Capability, Segment, Strategic
- B.** Definition, Realization, Transition, Vision
- C.** Application, Business, Data, Technology
- D.** Context, Definition, Governance, Transformation

Answer: C

NO.10 Which one of the following is defined by TOGAF as: the fundamental organization of a system embodied in its components, their relationship to each other, and the principles guiding its design and evolution?

- A.** Model
- B.** Metamodel
- C.** Pattern
- D.** Architecture
- E.** Ontology

Answer: D

NO.11 In the Solutions Continuum, which of the following is the correct order of Solutions from

most-specific to most-generic?

- A. Common Systems, Foundation, Industry, Organization-Specific
- B. Foundation, Common Systems, Industry, Organization-Specific
- C. Organization-Specific, Industry, Foundation, Common Systems
- D. Industry, Foundation, Common Systems, Organization-Specific
- E. Organization-Specific, Industry, Common Systems, Foundation

Answer: E

NO.12 Which section of the TOGAF document contains a structured metamodel for architectural artifacts?

- A. Part VI: TOGAF Reference Models
- B. Part IV: Architecture Content Framework
- C. Part VII: Architecture Capability Framework
- D. Part III: ADM Guidelines and Techniques
- E. Part II: Architecture Development Method

Answer: B

NO.13 Complete the sentence. In a gap analysis, a building block that appears in the Target Architecture but does not appear in the Baseline Architecture indicates _____

- A. nonconformant solution building blocks
- B. a new function that must be built or procured
- C. an error has occurred and the architecture must be re-evaluated
- D. functionality that should be eliminated
- E. requirements have not been properly documented

Answer: B

NO.14 Which part of the TOGAF document describes an overview of typical architecture deliverables?

- A. Architecture Content Framework
- B. ADM Guidelines and Techniques
- C. TOGAF Reference Models
- D. Enterprise Continuum & Tools
- E. Architecture Capability Framework

Answer: A

NO.15 According to TOGAF, in which sequence should Application Architecture and Data Architecture be developed in Phase C?

- A. Application Architecture should be developed concurrently with Data Architecture
- B. Application Architecture should be developed first, then Data Architecture
- C. Application Architecture and Data Architecture may be developed in either sequence
- D. Data Architecture should be developed first, then Application Architecture

Answer: C

NO.16 Which of the following best describes the purpose of the Business Transformation Readiness Assessment technique?

- A.** To determine if the stakeholders support the implementation plan
- B.** To ensure that there are adequate trained engineers to develop the solution
- C.** To plan the migration steps needed to achieve the transformation
- D.** To ensure that there is sufficient funding to execute the transformation
- E.** To determine if the organization is ready to undergo change

Answer: E

NO.17 According to TOGAF, which of the following best describes the purpose of a Compliance Assessment?

- A.** To ensure that architecture information is communicated to the right stakeholders at the right time
- B.** To show progression of change from the Baseline Architecture to the Target Architecture
- C.** To provide a high-level view of the end architecture product
- D.** To govern the architecture throughout its implementation process

Answer: D

NO.18 Scenario

Please read this scenario prior to answering the Question

You are serving as the Lead Architect for an Enterprise Architecture project team within a multinational oil and gas corporation. It is organized into two major business groupings:

-Upstream operations which include exploration for crude oil and natural gas and operating the infrastructure necessary to deliver oil and gas to the market.

-Downstream operations which include the manufacturing, distribution and marketing activities for oil products and chemicals Safety is a priority for the company, with the aim to ensure it causes zero harm to people and the environment.

The company has to satisfy the regulatory requirements of each of the countries it operates in.

The downstream business generates a third of the company's profits worldwide and includes more than 30,000 petrol stations and various oil refineries. In some countries it also includes oil refining, a retail station network, lubricants manufacture and marketing, industrial fuel and lubricants sales. The practice for the downstream business has been to operate locally managed by local "operating companies".

The Governing Board is concerned about the risk posed by operating in this complex global environment with a large part of the downstream business represented by local operating companies. As a result, the Chief Executive Officer (CEO) has appointed a Chief Compliance Officer (CCO) to be responsible for overseeing and managing compliance issues for the corporation. The CCO reports directly to the CEO.

The CCO has approved the expenditure of resources to establish an Enterprise Architecture program, and has mandated the use of the TOGAF standard as the framework. He has requested to be informed about the status of downstream operations that could impact regulatory compliance. He also wants the corporate legal staff and auditors to analyze all proposed new downstream operations to ensure that they are within the legal guidelines for each country. In addition, the local operating companies should be able to see that the architecture is appropriate for their needs.

The architecture project team has worked within the sponsor to complete a detailed Request for

Architecture Work providing the high level project description. As the project commences the next phase, the necessary approvals from corporate and line management have been

Refer to the Scenario

You have been asked to recommend an approach that would enable the development of an architecture that addresses the needs of the Chief Compliance Officer, legal staff, auditors and the local operating companies.

Based on the TOGAF standard, which of the following is the best answer?

- A.** You recommend that an analysis of the stakeholders is undertaken, including development of a Stakeholder Map. This will allow the architectures to define groups of stakeholders who have common concerns. The concerns and relevant viewpoints should be defined for each group of stakeholders, and recorded in the Architecture Vision document.
- B.** You recommend that a Communications Plan be created to address the powerful and influential stakeholders. This plan should include a report that summarizes the key features of the architecture with respect to each location and reflect the stakeholders' requirements. You will check with each stakeholder that their concerns are being addressed.
- C.** You recommend that a set of models be created for each project architecture that can be used to ensure that the system will be compliant with the local regulations. A formal review should be held with the stakeholders to verify that their concerns have been properly addressed by the models.
- D.** You recommend that the ArchiMate modeling language is used to create a set of models that can be applied uniformly across all architecture projects. Each architecture should then be defined based on this fixed set of models. All concerned parties can then examine the models to ensure that their needs have been addressed.

Answer: A

NO.19 Which pair of the following responses best completes the sentence? Architecture building blocks ____, whereas Solution Building blocks ____

- A.** are assembled; are single function components
- B.** are reusable; are not reusable
- C.** are single function components; are groups of architecture building blocks
- D.** define functionality; define the implementation of functionality
- E.** define the architecture; provide the existing legacy system

Answer: D

NO.20 Which one of the following is considered a relevant architecture resource in Phase D?

- A.** Generic data models relevant to the organization's industry sector
- B.** Generic business models relevant to the organization's industry sector
- C.** Generic application models relevant to the organization's industry sector
- D.** Generic technology models relevant to the organization's industry sector

Answer: D
